SANTIAGO, Cuba. Feb. 1.-An order received here from Havana has not tended to relieve the situation or to reconcile the people to being ruled from a distance. Under its terms a deduction of 20 per cent is to be made in the case of all salaries exceeding \$600 per annum.

This is really an old Spanish tax, al-ways exceedingly obnexious, and only used as an extreme war measure. It does not touch the laboring class, but strikes those who have most influence over the working pect! -- the mayors chiefs of gendarmery and judges in the province. These officials bitterly protest against the injustice of this deduction, for Gen-

eral Leonard Wood, military governor eyes twinkle, and his white teeth show of the department of Santiago, when reorganizing their offices, reduced the salaries paid under the Spanish regime quite 10 per cent on the average and 50 per cent in some instances. Moreover, these reductions were invariably made before appointing the incumbents. Under the Spanish government the mayor of Santiago received \$250 a month. General Wood reduced the amount to \$100 believing this all the city could afford and arguing that a good citizen ought to be willing to undertake the mayoral duties on that basis for the benealt of the people of the city. The general impression here is, and it

is confirmed by reports received from other provinces, that the present condimust change shortly. It is no considered likely that any trouble will grow out of these latest instructions from Havana, but they have tended to ncrease what is undoubtedly a growing discontent.

General Wood arrived unexpectedly yesterday by the Ward lines. No preparations could be made to receive hi on such short notice, and Senor Bacardi, the mayor, is greatly chagrine Some day this week, however, the mayor will hold a mass meeting in honor of the military governor, at which the people will have an opportunity to express their satisfaction at his return and their approval of his course at Washington. General Wood held a reception at the palace in the morning when he was waited upon by the judge of the supreme court, the mayor and other prominent officials, all of whom chattered in Spanish to Marti in short, assured him of their genuine pleasure jerky sentences, the comparison to a at his safe return. scared chipmunk was irresistible.
